

Japan Faces Destruction With New Atomic Bomb Equivalent to 20,000 Tons of TNT Now in Use

WASHINGTON, Aug. 6.—(AP)—An atomic bomb which looses pent-up forces of the universe equivalent to more than 20,000 tons of TNT and represents one of the greatest scientific advances of history has been dropped on Japan.

President Truman told today of the terrific destructive power packed into the missile which was dropped 16 hours ago on Hiroshima, an important Japanese Army base. His statement, released by the White House at 11 A. M. EWT, said the bomb "added a new and revolutionary increase in destruction" on the Japanese homeland.

Secretary Stimson predicted today that the Atomic bomb will "prove a tremendous aid" in shortening the war with Japan.

The war secretary made his statement as the Army reported that an "impenetrable cloud of dust and smoke" cloaked Hiroshima after it was hit by the new weapon from the air.

An accurate assessment of the damage inflicted by the bomb is not yet available, however, the War Department said. As soon as details of its effectiveness are learned, the department added,

they will be released.

Stimson promised that further statements will be released in the future to give additional details concerning scientific and production aspects.

The raid on Hiroshima, located on Honshu Island on the

shores of the Inland Sea, had not been disclosed previously although the 20th Air Force on Guam announced that 580 Superforts raided four Japanese cities at about the same time.

This awful bomb is the answer, President Truman's statement said, to Japan's failure to heed the Potsdam demand that

she surrender unconditionally at once or face utter destruction.

The product of \$2,000,000,000 spent in research and production—"the great scientific gamble in history," Mr. Truman said—the Atomic Bomb has been one of the most closely guarded secrets of the war.

The Atomic Bomb was developed at factories in Tennessee, Washington and New Mexico.

Mr. Truman in his announcement said from 65,000 to 125,000 workers were employed on the project at Oak Ridge near Knoxville, Tenn., at Richland near Pasco, Wash., and at an unnamed institution near Santa Fe, N. M.

He said the work was so secret that most of the employees did not know the character of it.

Franklin D. Roosevelt and Winston Churchill gave the signal to start work on harnessing the forces of the atom. Mr. Truman said the Germans worked feverishly, but failed to solve the

German Woman Finds Key to New Bomb

By HOWARD W. BLAKESLEE

NEW YORK, Aug. 6.—(AP)—President Truman's statement that the Atomic Bomb is made of the force from which the sun draws its power explains the principle of this new explosive.

The sun's power is that sun's heat. For years scientists have known that this heat could not come from ordinary fires like any known on the earth's face. The sun just wasn't big enough to

have lasted the billions of years during which there is plenty of evidence it has been burning at the present rate.

In ordinary fire molecules of wood, coal or whatever else is blazing, separate. As they come apart, the energy which held them together, is released in the form of heat, light and other rays, like X-rays.

FOUR CENTS

4 MORE DOOMED JAP CITIES DESTROYED

Meandering
Along the
Main Stem
By WASH FAYETTE

The recent discovery that a "live" 75 mm. artillery shell had been knocked about on a farm near Chillicothe, until it was taken to police headquarters in Chillicothe for disposition, reminds me that years ago someone found a similar shell in Sugar Creek, where it had been dumped from a bridge in an effort to dispose of it safely.

The shell was brought into the city and I wrote a yarn about it being found.

As soon as the paper was off the press an excited voice called me and said:

"For goodness sakes have someone to take that shell back and dump it into the creek in the deepest hole in the stream! That shell is loaded and is liable to explode anytime!" It was a former officer of M Company that called me.

Well, the shell was taken back and disposed of somewhere in Sugar Creek, and I presume is still slumbering peacefully in the mud of the stream.

That particular shell was picked up on the field at El Paso while Company M was on the Mexican border during the Villa excitement, and had been shipped up here by train, handled promiscuously until it was found "alive" then hurriedly disposed of by dumping it into Sugar Creek.

HUGE FLYING BOAT SINKS - - NONE LOST

Disaster Befalls Air Giant on Routine Test Flight

ROCK HALL, Md., Aug. 6.—(AP)—The 724-ton flying boat Hawaii Mars crash-landed and sank in Chesapeake Bay yesterday.

A single member of the 10-man crew was injured. No others were aboard.

The plane, capable of carrying 138 passengers, is one of 20 ordered by the Navy from the Glenn L. Martin Company of Baltimore.

Launched only two weeks ago, the Hawaii Mars was on a routine test flight over the bay when, a crewman said, the upper section of the plane's vertical fin broke away at an altitude of 6,000 feet.

The plane struck the water about 500 yards off shore. The impact of the 125-mile-an-hour blow ripped open the metal hull, and the plane sank until only part of its tail and left wing remained visible.

Two crew members trapped in the flight deck were rescued by companions.

BOMBER GUNNER MISSING AFTER 108 COMBAT TRIPS

GUAM, Aug. 6.—(AP)—Tailgunner Kurt J. Hermann, who fought over two oceans and all three enemy capitals, is missing in action—just two trips short of his self-set 110-mission retirement goal.

The 26-year-old tech sergeant from Babylon, N. Y., passed up at least two chances to go home to stay. He wanted to complete 110 combat missions. On the 108th, over Kochi, Japan on July 4, his Superfort was lost.

HEATED DISPUTE OVER ARMY SIZE NEAR SHOWDOWN

Ohio's Sen. Taft Criticizes Army for Slowness in Demobilization

WASHINGTON, Aug. 6.—(AP)—President Truman, as commander in chief, probably will have to step in to settle the mounting dispute over the size of the army needed to whip Japan.

This word came today from Capitol Hill, where a first class row has developed over the size of the fighting forces for a one-front war.

Senators Johnson (D-Colo.) and Taft (R-Ohio) openly criticized the War Department over the weekend for its slowness in demobilization, and there were signs their independent campaigns were picking up recruits among other lawmakers.

On the other hand, such senators as Pepper (D-Fla.) and Thomas (D-Utah)—the latter chairman of the military committee—were standing by Secretary of War Stimson in his decision to retain about 7,000,000 men in uniform as of next June 1.

Pepper said: "The war and navy departments are charged with prosecution of the war and they know more about the size forces they need than the senate does. With all due respect to the distinguished senator from Colorado (Johnson), I think the size of the army is a matter which should be left to the commander in chief and the army general staff."

Thomas already was on record with this statement: "It is time we stopped fooling around with (Please Turn to Page Two)

NEW TRIAL DENIED CLARK PROSECUTOR

SPRINGFIELD, Aug. 6.—(AP)—Jerome A. Nevius, Clark County prosecutor found guilty of accepting two cars and money from admitted operators of the Silver Dollar Gambling Club has lost his motion for a new trial and arrest of judgment.

Judge Golden C. Davis Saturday overruled defense attorney Paul M. Herbert's request for a retrial on grounds that "there was racial and religious discrimination in the trial," and that "Nevius did not have a fair and impartial trial."

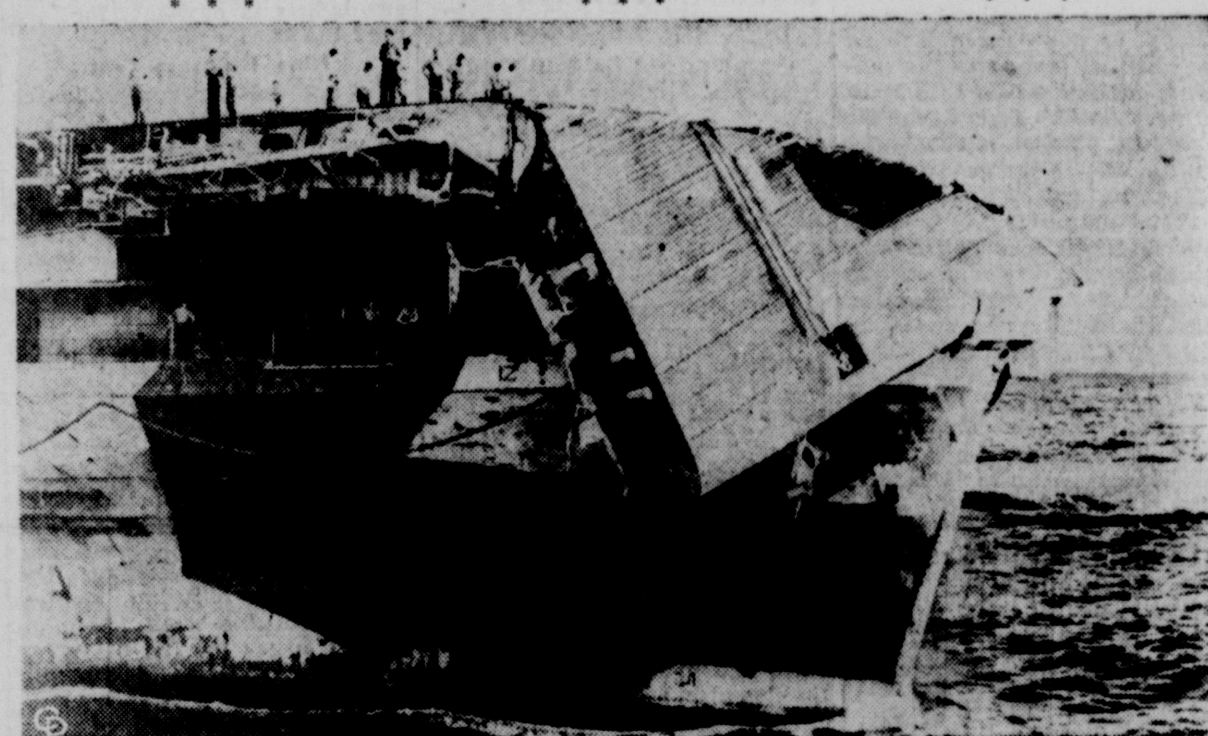

Nevius' sentence probably will be withheld pending a possible appeal.

Taft Starts GOP Drive To End Wartime Controls

WASHINGTON, Aug. 6.—(AP)—Senator Taft of Ohio put his vacationing colleagues on notice over the weekend of a Republican drive this fall to end most wartime controls.

Calling for a halt to further drafting of men into the armed forces and for relaxation of price and production controls, the chairman of the Senate Republican steering committee asserted in a statement: "You can't expect free enter-

Storm Does to Hornet What Japs Could Not

CREWMEN STAND ATOP the flight deck of the Carrier Hornet as she heads toward San Francisco after suffering considerable damage in a typhoon that struck the flat-top on June 5. (International)

Little Tennessee Town Vast Secret Bomb Plant

OAK RIDGE, Tenn., Aug. 6.—(AP)—The story of how in three years this previously rural community has grown to a city with a population of nearly 75,000—fifth largest in Tennessee, was released by the Army today, following a Washington announcement of atomic bomb production.

Clinton Engineer Works is the name of the plant in which the super-bombs just released on the Japs are being produced in Tennessee. Oak Ridge is the name of the town where many new employees reside, although thousands commute from Knoxville and other communities.

The atomic bomb project in Tennessee was camouflaged under the name of the Manhattan Engineer District but reference to this or to the Clinton Engineer Works in news stories was frowned on and although residents of Knoxville knew that a vast secret war plant was being built, ideas not only as to the work being done but as to the size of the project remained extremely vague.

Maj. Gen. Leslie R. Groves, in Washington and Col. Kenneth D. Nichols at Oak Ridge supervised the creation of this new industrial empire in Tennessee, bringing in thousands of workers who did a job and then went on to other places under caution not to discuss what they had been doing.

RACING AT FAIRS BACKED BY LAUSCHE

COLUMBUS, Aug. 6.—(AP)—Gov. Frank J. Lausche today asked the Office of Defense Transportation at Washington to work out a program to make possible the delivery of race horses to Ohio's 84 county fairs.

In his letter to J. Monroe Johnson, ODT director, Gov. Lausche said he was not interested in commercial racing and was making no appeal for those tracks.

"With the commercial professional race tracks operated separately and apart from county fairs, I have no concern and for them I am making no appeal," Lausche asserted. "However, in respect to the county fairs, which have become institutions in our state, where the farmers assemble after their work is done, I feel obligated to appeal to you to work out some program that will make possible the deliveries of horses to these county fairs for racing purposes."

SINATRA SAVES BOY

Crooner Dives Into Water for Unconscious Child

HOLLYWOOD, Aug. 6.—(AP)—Frank Sinatra made a spectacular dive into the harbor at nearby San Pedro to save the life of a three-year-old boy yesterday.

Frank's feat occurred when the boy, Duke Jones, fell 13 feet from a railing onto a yacht dock, then rolled unconscious into the water. The crooner, who had spent the day as crewman for a sailing boat in a match race, rushed across the dock, leaped into the water and pulled the youngster to safety.

BRITISH COUNSUL IN OHIO TO BE AWARDED DEGREE

BOWLING GREEN, Aug. 6.—(AP)—Bowling Green State University will award an honorary Doctor of Political Science degree to Ernest J. Bisiker of London, British consul for Ohio, and the degree of doctor of laws to President George A. Bowman of Kent State University at commencement exercises here August 17.

PLANE CRASH IN OHIO CLAIMS LIVES OF TWO

FREMONT, Aug. 6.—(AP)—The bodies of Mrs. Marcella Clement, 38, of Blissfield, Mich., and Vincent D. Bills, 30, of Urbana, O., city councilman, were returned to their homes for burial today. They were killed in the crash of a borrowed plane a mile east of nearby Woodville Saturday.

Lemon Chiffon Pie Goes To War Too

Escort Carrier Commander Believes in Exchange of Ideas, Even Galley Delicacies

By ROBBIN COONS

PACIFIC WAR BASE.—(AP)—The connection between lemon chiffon pie and Rear Adm. Calvin Thornton Durgin's complete war effort may seem ephemeral. And yet the fate of nations has hung on similar gossamer threads.

Durgin, commander escort carrier force, U. S. Pacific fleet, has a chef. If you're lucky in these

Famous Aircraft Carrier Battered So Hard by Gale and Mountainous Waves She Has To Come to San Francisco for Repairs

WASHINGTON, Aug. 6.—(AP)—A mountainous wave lifted up and slammed down the 27,000-ton aircraft carrier Hornet so hard last June 5 that the forward corners of the flight deck folded down along the sides.

Thus nature, in the form of a 120-knot gale (138 miles an hour), achieved what the Japanese never were able to do in 14 months of hard-fought action—it damaged the big ship.

The Navy told the Hornet's

story today. It let the Japanese know exactly where the Hornet is—Hunter's Point in San Francisco Bay. She steamed through the Golden Gate July 7 and went to drydocks for repair.

Behind her lay 1,270,000 tons of enemy shipping sunk or damaged and 1,410 ruined enemy planes.

Some of the figures: 668 planes shot down; 742 planes destroyed on the ground; one cruiser sunk; one carrier sunk; 10

Russia Wants Door On Mediterranean

Stalin Starts Maneuvers at Potsdam During Discussions of Disposition of Italy's One-time Possessions — Move to Open Dardanelles Indication of Ambitions

WASHINGTON, Aug. 6.—(AP)—Generalissimo Stalin opened the door at Potsdam for Russia's possible emergence as a Mediterranean power.

Focal point for future discussion will be disposition of Italy's one-time possessions. Diplomatic reports received here say Italian islands in the Mediterranean, especially Pantelleria, will constitute a storm center of considerably greater political significance than the former Axis partner's North African colonies.

Russia moved openly for a voice in Mediterranean affairs some weeks ago with a request, later granted, for Soviet participation in a scheduled conference to restore Spanish-occupied Tangiers to international status. Tangiers is (Please Turn to Page Eight)

LAW CLAMPED DOWN ON OHIO GAMBLING

COLUMBUS, O., Aug. 6.—(AP)—An "enforce the law or be fired" ultimatum went out today to inspectors and investigators in the state liquor department, as Gov. Frank J. Lausche intensified his drive against gambling in establishments selling liquor.

Governor Lausche said that operation of a gambling establishment and a licensed night club "did not disassociate them" if they were operated by the same parties.

He referred to an investigation of gambling in Chesapeake, an Ohio River town from which he said complaints were received that a gambling place was being run by operators of a tavern, 300 feet away.

STIFF DEFENSE MET BY YANKS ON LATER RAIDS

Reports of New Terrors Come Out of China—Kweiling Socked by Invaders

By LEONARD MILLIMAN

By The Associated Press. American airmen have dropped an atomic bomb on Japan—a devastating force containing the harnessing of the basic power of the universe—equivalent to more than 20,000 tons of TNT.

The bomb was dropped on Hiroshima, sea port and Japanese army base on southwestern Honshu Island, early Monday (Japan time) while 150 Superforts and Mustang fighters were attacking four more Nippon cities and other targets.

President Truman, announcing at the White House the use of the new weapon, said: "It is a harnessing of the basic power of the universe"—the force from which the sun draws its power.

The bomb's blast is more than 2,000 times the blast of the largest bomb previously made.

Hiroshima, a city of 318,000, was not on the B-29 list of cities marked for destruction. It was selected as a special target for war's newest and most terrible weapon.

"We shall completely destroy Japan's power to make war," President Truman declared.

The bomb was put to use, the President noted, after Japan had rejected the Potsdam ultimatum to surrender or face destruction.

Fire bombs, rockets and parachuted mines were used by the Superforts and Mustangs in their new strikes.

B-29 crewmen returning to their Marianas Island bases told of setting fires visible for 150 miles at sea. Some ran into intense anti-aircraft fire and strong intercept (Please Turn to Page Two)

CANNED FRUIT JUICE OFF RATIONING LIST

WASHINGTON, Aug. 6.—(AP)—Grocers scratched point values today from canned tomato juice, mixed vegetable juice and grapefruit-orange juice blends.

OPA's action in making those products ration-free yesterday followed a recommendation from Secretary of Agriculture Anderson based on lowered military demands.

Anderson also announced that civilian store shelves will get 10,000,000 more cases of canned vegetables from this year's pack than had been expected.

Despite the 10 percent increase, however, the agriculture department said the total still will be less than last year's.

MIDDLETOWN MERCHANTS STARTS 'PAPER HOLIDAY'

MIDDLETOWN, Aug. 6.—(AP)—Retail merchants here have declared a "paper holiday," effective immediately, and warn that customers will receive their purchases without wrapping except in cases of necessity. R. C. MacNab, president of the Retail Merchants Association, sponsors of the move, said the holiday will continue until paper supplies become more plentiful.

SOLLARS MEETS U. S. SECRETARY OF AGRICULTURE

Attends Important Meeting of Farmers and Secretary Clinton P. Anderson

Walter Sollars, prominent Fayette County farmer, represented the farmers of Fayette County in a meeting at the Gibson Hotel in Cincinnati, Saturday, for a meeting with U. S. Director of Agriculture, Clinton P. Anderson.

Many prominent farmers from southwestern Ohio, Indiana and Kentucky attended the meeting, which was arranged under the direction of Roy Battles, farm news commentator of WLW, and Sollars was a member of a committee of six that met Anderson for a conference in his room at the hotel before the general meeting Saturday afternoon.

Sollars came from the meeting deeply impressed with the new secretary's ability to meet and deal with farm problems, and said that Anderson explained that he was holding a series of meetings with farmers throughout the country to ascertain what was in their minds; to confer with them, understand their problems better, and take action looking for betterment of conditions on the farm.

After Secretary Anderson had talked for a short time, he asked that all who had questions they wished him to answer, to ask them, and for the next two hours he answered dozens of questions, discussing them freely and showing a profound knowledge of the problem involved in the questions asked.

He told those present that he hoped to dispense with farm subsidies by the first of July, 1946, and have a program ready that would make such subsidies unnecessary.

He said the sugar situation was acute because of a crop shortage in Cuba, and that the public was receiving all of the sugar possible at present.

In response to a question, Anderson said the department is not going to ask for an increase in hog production next year until the outcome of the present corn crop is known, stating that most of it was late and that this might result in a reduced yield if early frosts occur.

He also said that grain for manufacture of intoxicating beverages was taboo until the outcome of the corn crop is known.

Regarding the labor bottleneck on the farm, and in response to a query if farmers in the military service were going to receive priority in discharge from service, he said that there was no indication of this at present, as railroad workers and miners were receiving the priority in discharges.

He also said that plans call for abolishment of prisoner of war labor after this year, and that might make next year's labor problems even worse than at present.

Mainly About People

Mrs. Rose Hughey is confined to her home on East Street with an infected ankle.

Mr. and Mrs. Howard Snyder are announcing the birth of a son, Ronald Eugene, at home on August second.

Mrs. Earl Barnett is recuperating today from an attack of sciatic rheumatism suffered at home, recently.

major quartermaster depot and has large ordnance, machine tool and aircraft plants.

The city of 318,000 also contains a principal port.

The President disclosed the Germans "worked feverishly" in search of a way to use atomic energy in their war effort but failed. Meantime American and British scientists studied the problem and developed two principal plants and some lesser factories for the production of atomic power.

The president disclosed that more than 65,000 persons now are working in great secrecy in these plants, adding:

"We have spent \$2,000,000,000 on the greatest scientific gamble in history—and won."

"We are now prepared to obliterate more rapidly and completely every productive enterprise the Japanese have above ground in any city. We shall completely destroy Japan's power to make war."

The president noted that the Big Three ultimatum issued July 26 at Potsdam was intended "to spare the Japanese people from utter destruction," and the Japanese leaders rejected it. The atomic bomb now is the answer to that rejection and the president said "they may expect a rain of ruin from the air, the like of which has never been seen on this earth."

Mr. Truman forecast sea and land forces will follow up this air attack in such numbers and power as the Japanese never have witnessed.

The president said that this discovery may open the way for an entirely new concept of force and power. The actual harnessing of atomic energy may in the future supplement the power that now comes from coal, oil and the great dams, he said.

"It has never been the habit of the scientists of this country or the policy of this government to withhold from the world scientific knowledge," Mr. Truman said. "Normally, therefore, everything about the work with atomic energy would be made public."

That will have to wait, however, he said, until the war emergency is over.

Cmdr. Herbert Agar, aide to U. S. ambassador to Great Britain

JAPAN FACES DESTRUCTION WITH NEW ATOMIC BOMB BEING USED NOW BY U. S.

(Continued From Page One)

problem.

Mr. Truman added:

"It is an Atomic bomb. It is a harnessing of the basic power of the universe. The force from which the sun draws its power has been loosed against those who brought war to the Far East."

Mr. Truman grimly warned that "even more powerful forms (of the bomb) are in development." He said:

"If they do not now accept our terms, they may expect a rain of ruin from the air the like of which has never been seen on this earth."

The War Department reported that "an impenetrable cloud of dust and smoke" cloaked Hiroshima after the first atomic bomb crashed down. It was impossible to make an immediate assessment of the damage.

President Truman said he would recommend that Congress consider establishing a commission to control production of atomic power within the United States, adding:

"I shall make recommendations to Congress as to how atomic power can become a powerful and forceful influence towards the maintenance of world peace."

The base that was hit is a

64 ATTENDING GRACE CHURCH BIBLE SCHOOL

Dozen Teachers and Helpers In Charge of Children Four to 12 Years

Monday, first day of the two-weeks Daily Vacation Bible School at Grace Church, saw 64 children enrolled in the various classes, with a dozen teachers and helpers present.

The enrollment is very gratifying to those in charge, and additional children are expected to enroll within the next day or two, and swell the number in attendance the first day.

The children range in age from four to 12 years, and the instruction, given each day for two weeks, except Saturdays and Sundays, last from 8:30 A. M. until 11 A. M. each day.

During the two weeks the children are instructed in many phases of the Bible, and the schools, held each year for many years, have been a big incentive Sunday School.

The teachers are selected for their knowledge of the Bible and ability to impart the information to the children of different ages that are in our respective classes.

John G. Winant, said on June 29 that "if the war (European) had gone on for another six months, it is quite possible that this planet would have ceased to exist because it was probable that someone would have learned to break the atom without controlling it."

Agar said "there was a danger that the Germans would learn how to split the atom first," and added: "I sincerely believe that in a very few years human beings will know how to destroy the human race."

Previously Lt. Col. John A. Keck of Greensburg, Pa., chief of the enemy equipment intelligence section of the U. S. Army Ordnance Division in the European theater, had told of many highly advanced German secret weapons which had not yet reached the perfection stage when the war ended.

While revealing many German inventions Keck added that they were not all—that there were others which must remain secret because of the Pacific war.

Keck said the German scientists declared their belief that rockets within the next five to 10 years would speed a ton of mail across the Atlantic in 40 minutes and that within 15 to 25 years rockets would make regular passenger runs between Europe and the United States.

A faint idea of the power within the atomic bomb:

On June 6, 1917, a munitions ship blew up in a collision in Halifax, N. S., harbor; 1,500 persons were killed, 4,000 injured, 20,000 made homeless, two and one-half miles of the city devastated.

That munitions ship carried 3,000 tons of TNT—about one-seventh of the equivalent of the new bomb.

Monday, first day of the two-weeks Daily Vacation Bible School at Grace Church, saw 64 children enrolled in the various classes, with a dozen teachers and helpers present.

The enrollment is very gratifying to those in charge, and additional children are expected to enroll within the next day or two, and swell the number in attendance the first day.

The children range in age from four to 12 years, and the instruction, given each day for two weeks, except Saturdays and Sundays, last from 8:30 A. M. until 11 A. M. each day.

During the two weeks the children are instructed in many phases of the Bible, and the schools, held each year for many years, have been a big incentive Sunday School.

The teachers are selected for their knowledge of the Bible and ability to impart the information to the children of different ages that are in our respective classes.

John G. Winant, said on June 29 that "if the war (European) had gone on for another six months, it is quite possible that this planet would have ceased to exist because it was probable that someone would have learned to break the atom without controlling it."

Agar said "there was a danger that the Germans would learn how to split the atom first," and added: "I sincerely believe that in a very few years human beings will know how to destroy the human race."

Previously Lt. Col. John A. Keck of Greensburg, Pa., chief of the enemy equipment intelligence section of the U. S. Army Ordnance Division in the European theater, had told of many highly advanced German secret weapons which had not yet reached the perfection stage when the war ended.

While revealing many German inventions Keck added that they were not all—that there were others which must remain secret because of the Pacific war.

Keck said the German scientists declared their belief that rockets within the next five to 10 years would speed a ton of mail across the Atlantic in 40 minutes and that within 15 to 25 years rockets would make regular passenger runs between Europe and the United States.

A faint idea of the power within the atomic bomb:

On June 6, 1917, a munitions ship blew up in a collision in Halifax, N. S., harbor; 1,500 persons were killed, 4,000 injured, 20,000 made homeless, two and one-half miles of the city devastated.

That munitions ship carried 3,000 tons of TNT—about one-seventh of the equivalent of the new bomb.

HEATED DISPUTE OVER SIZE OF ARMY NEARS SHOWDOWN IN CAPITAL

(Continued From Page One)

the size of the army. There is a general rush to collapse the armed services."

Taft called the War Department's big army policy "stupid, stubborn," and Johnson challenged Stimson in a letter to disprove the Coloradoan's assertion there can't be more than 3,000,000 effective on the Pacific front by next year, due to transportation and supply difficulties.

Johnson said Gen. Douglas MacArthur ought to get all the men he can possibly use, but remarked that "discontented American soldiers marking time on this continent are not going to help MacArthur or hurt the Japs."

If Stimson's decision is carried out, Johnson said, it means—"Millions of bitter, discontented men milling around the United States in uniform... a transportation crisis... a serious manpower shortage in vital industries... that reconversion is stymied... that we are to have mass demobilization at the very moment when unemployment in the United States is at its peak."

GERMAN WOMAN FINDS KEY TO DEVELOPMENT OF TERRIBLE ATOMIC BOMB

(Continued From Page One)

The sun burns not by separation of molecules but by two much more intensely hot methods. One is the atoms that form molecules separating from each other. This kind of separation releases incredibly greater amounts of heat and energy than molecule separations.

But an even greater source of sun power is the fact that the atoms themselves come apart to some extent. These atoms are made of electrons, protons and other electrical and non-electrical particles. Electrons and other particles fly off the atoms. This kind of separation releases even greater energies (including heat and all other sorts of rays) than the separation of atoms from each other.

Not all these inter-atomic forces are yet even known. Some are so powerful that they have only been guessed at. The popular phrase, smashing the atom, describes this sort of atomic disintegration where the atom itself flies apart.

For many years scientists have been able to disintegrate atoms in laboratories. There were no explosions, because billions of atoms would have to go off at one time, even to equal a firecracker. The reason is that atoms are so exceedingly tiny.

It has been clear to scientists for nearly a half century that if they could get enough atoms in a piece of matter, or even gas, the size of a pea, to break up all at once, the explosion would be terrible.

President Truman's announcement gives no clue to the method of producing the atomic bomb. The steps which were sensational just before the war, and which were given world-wide publicity then, are still strictly censored, even though the information is available in public records.

His statement does give one clue, which is in line with what scientists expected. This is that there are useful possibilities in

Brothers are Reunited In Marines in Hawaii

Eugene Moats Robert Moats

A veteran of the Marine Corps invasions of the Marianas, Saipan and Tinian and who took part in some of the bloody fighting for Iwo Jima is Pfc. Eugene Moats, 22, son of Mr. and Mrs. I. A. Moats, 228 Morehead Street, Troy, who formerly resided in this community. Imagine his surprise one morning when he woke up in a rest camp at a base in the Hawaiian Islands to find that his brother, Pfc. Robert L. Moats, 26, had been transferred into his outfit, the Fourth Marine Division.

After 18 months separation, the two brothers were reunited and for a time had their tents pitched only 200 yards apart. This word was sent to their parents in Troy.

Both were born at Yatesville and attended school there and in Bloomingburg. The brothers were employed at a steel mill in Gary, Ind., before the war but had registered with the Troy draft board, where their parents now lived.

Eugene was the first of the two to enlist in December, 1942. He was sent to San Diego, Camp Elliott and to Camp Pendleton, for intensive jungle warfare training.

His brother Robert, whose wife and 19-month-old son, Bobby, are living here with their parents, Mr. and Mrs. Wiley Arnott, volunteered for service in May, 1943. He trained at Parris Island, S. C., before being sent to Camp Pendleton. He went overseas in December.

He was stationed on Midway Island in the South Pacific from that time until last May when he was transferred into the Fourth Marine Division.

SEN. HIRAM JOHNSON DIES IN WASHINGTON AFTER LONG ILLNESS

(Continued From Page One)

fight was against passage of the "Teen Age Draft Bill."

He had been expected to take a lead in opposition to the recently approved world charter, but illness prevented.

Another "Senate battle, in which he lined up in opposition to Sen. Connally and others, was on the United States-Mexican Water Treaty. It finally was enacted, but not until Johnson had called upon all the arts of a long career to defeat it.

Johnson, who served as governor of California from 1910 until his election to Congress six years later, described himself as a "progressive Republican" and was instrumental in writing into his state's constitution such provisions as the initiative, referendum and recall, the direct primary, woman suffrage and the wiping out of national party lines in municipal and county elections.

Under his leadership, California passed legislation governing workmen's compensation, limiting hours of work for women, creating a state marketing department, regulating railroads and prison reforms.

Co-author of the Swing-Johnson Act which made possible the great Boulder Dam, Johnson also played an important role in the creation of California's giant central valley project in which he maintained an active interest.

Although he always retained the Republican label in his activities, he several times broke with that party, the most recent being his support of President Roosevelt in 1932.

During Roosevelt's second term, however, the veteran Californian opposed the president on several major issues and took the stump against him when he ran for a third term.

FOUR MORE JAP CITIES DESTROYED FROM AIR; CHINESE CITY SOCKED

(Continued From Page One)

tion including rocket planes as they raided cities Tokyo described "defenseless."

Waves of B-29s from the Marianas Islands and Mustang fighters from Iwo Jima struck as American commanders announced 70 Nipponese ships and small craft and 61 locomotives were destroyed or damaged in previous aerial blows, reaching over 4,500 miles from Paramushiro to Singapore.

The air war reached such proportions a row appeared to be brewing in Congress over whether the United States needed an army of 7,000,000 men to finish knocking out Japan.

Action in China

Terror-ridden China carried the brunt of ground actions. Elsewhere land armies hunted for Japanese generals in the northern Philippines, drove toward trapping the largest Japanese force remaining in New Guinea and counted 13,000 Nipponese dead in recent fighting in monsoon-swept south Burma.

Superforts warned 12 more cities Sunday morning they were on their fire list. A formation of 580 followed up today by lighting towering fires in four of the 31 forewarned cities.

Today's targets include Nishinomiya, noted in pre-war days for producing Japan's best sake, favorite alcoholic beverage of Nippon. The other industrial targets were Maebashi, 60 miles from Tokyo; Saga on northern Honshu Island, and Imburi, on the southern island of Honshu. One B-29 unit hammered the Ube coal liquefaction plant with high explosives.

Tokyo said 30 other Superforts sowed new mines in three homeland waterways.

Japanese also reported Mustangs from Iwo raked the capital with rockets, bombs and machine gun bullets in daylight for the third time in four days.

Nine Mustangs Lost

Nine Mustangs were lost in the two previous strikes, Friday and Sunday. Both raids were made by about 100 planes. They accounted for 12 enemy planes, 24 locomotives, and 19 small boats, and hammered assorted military installations and factories.

Twenty Mitchell bombers from Okinawa, grounded for two days by bad weather, rode the tail of a typhoon Saturday over southern Japan. They hit the rail center of Takanabe so hard that rear echelons "flew through thick smoke and flying wreckage." Pilots said they saw a chemical plant "lift and fall apart."

Topping other air strikes the length of the Mikado's empire, seven Philippine-based Lightning fighters struck for the first time at the former Dutch naval base of Soerabaja on Java, refueling on Borneo. They destroyed 37 locomotives.

Primary Japanese concern was over the B-29s which Tokyo radio said were raining fire bombs on "defenseless" smaller cities "for the sole purpose of massacring as many innocent civilians as possible."

Among these "defenseless" cities was Toyama, leading aluminum producing city on the Japan Sea, whose industrial area B-29 headquarters said was "totally destroyed" in the record raid last Thursday.

Terror in China

The once-beautiful city of Kweilin was sacked by the Japanese with a thoroughness comparable to the Roman sacking of Carthage, it was reported today, while at recently liberated Kanhshien officials listed 50,000 of the

Chinese population dead or missing.

Kweilin, once a city of 500,000, was ravaged with a fury reminiscent of Lidice, said a dispatch from the former provisional capital Kwangsi, written by OWI Correspondent David Chandler.

The Kanhshien report asserted 50,000 Chinese residents of that southern Kiangsi province city were killed or disappeared during six months of Japanese occupation. No details were given.

A simultaneous Chinese Central News dispatch said that up to July's end more than 1,000 civilians had been killed in the Yangtze port of Ichang, western Japanese bastion in central China. This report said the Chinese died of poisonous injections forcibly administered by the Japanese, who said they were inoculations against meningitis.

At Kweilin, which the Chinese reoccupied July 27, Japanese squads, for 20 days before they fled, systematically set sections of the big city afire. Traitors in the city, Chandler wrote, were given \$3,000 Chinese for every building they destroyed.

Even the trees lining the main street were scorched and dead. The modern buildings, lavish hotels and beautiful shops were in ruins.

The only buildings left standing in the entire city were those which the Japanese used as headquarters and had no time to destroy. Everything else—every building and every coolie hut—was a mass of rubble.

A handful of people who remained during the enemy occupation were found huddled wet and hungry along the river banks and under half-shattered buildings.

A Chinese officer estimated two-thirds of the city's population left when the Japanese approached last year. Many others, warned by leaflets dropped from the air, cleared out after the Japanese occupied the city. Only people who were too poor to travel remained.

Americans and Filipinos eliminated an ambushing Japanese company and beat back two desperate counterattacks on northern Luzon Island, running last week's toll in the Philippines to 4,740 Japanese killed and 444 taken prisoner. U. S. losses for the week were 27 killed, 61 wounded.

Maj. Gen. William Gill offered a 45 day furlough to any member of the 32nd Division who captures an enemy general alive. Chief prize is Gen. Tomoyuki Yamashita, onetime "Tiger of Malaya," vari-

DROWNS IN GRAVEL PIT

HAMILTON, Aug. 6 (AP)—Fourteen-year-old Harry Crysel, son of Mr. and Mrs. Paul Crysel, drowned in a water-filled gravel pit yesterday.

Amazing Discovery In a Hearing Aid

A big improvement has been made in a hearing aid now welcomed by thousands. It is a new hearing aid that does not require separate battery pack, battery wire, battery case or garment to bulge or weigh you down. So small it fits the palm of the hand. About one-half the weight and bulk of most hearing aids. The tone is natural, noiseless, clear and powerful. The makers of Belton, Dept. 857, 847 Jackson Blvd., Chicago 7, Ill., are so proud of their achievement that they will gladly send free descriptive booklet and explain how you may get a full demonstration of this remarkable hearing device in your own home without risking a penny. Write them today.—Adv.

THRESHING AGAIN DELAYED BY SHOWERS

Final wheat threshing in Fayette County again was delayed over the week-end by rainfall, which was heavy in parts of the county, although very light in Washington C. H., where only .02 of an inch was recorded.

There are several fields to be threshed within a few miles of Washington C. H., as well as throughout the county.

ARRESTED HERE

Wilbur Mann was taken into custody at the GAR hall, Saturday night, after he had appeared in the window in scant attire, and a charge of drunk and disorderly conduct was placed against him.

JAPAN FACES DESTRUCTION WITH NEW ATOMIC BOMB BEING USED NOW BY U. S.

(Continued From Page One)

problem.

Mr. Truman added:

"It is an Atomic bomb. It is a harnessing of the basic power of the universe. The force from which the sun draws its power has been loosed against those who brought war to the Far East."

Mr. Truman grimly warned that "even more powerful forms (of the bomb) are in development." He said:

"If they do not now accept our terms, they may expect a rain of ruin from the air the like of which has never been seen on this earth."

The War Department reported that "an impenetrable cloud of dust and smoke" cloaked Hiroshima after the first atomic bomb crashed down. It was impossible to make an immediate assessment of the damage.

President Truman said he would recommend that Congress consider establishing a commission to control production of atomic power within the United States, adding:

"I shall make recommendations to Congress as to how atomic power can become a powerful and forceful influence towards the maintenance of world peace."

The base that was hit is a

THE WAR TODAY

By J. M. ROBERTS, JR.
(Substituting for MacKenzie)

Extension of General MacArthur's Pacific army command to include Okinawa and other Ryukyu Islands, in preparation "for the final conquest of Japan," has a double significance: it increases the stature of one of the great commanders of history, and it demonstrates that the Allies don't intend to linger unduly over an attempt to force surrender by bombing and blockade.

We may take this to be an echo from the Potsdam conference, I believe. America and Britain are determined to force the issue against Japan.

It must be a matter of extreme satisfaction to MacArthur thus to stand before the Mikado's inner fortress, actively preparing to storm it unless the enemy offers early capitulation. Harking back to the general's cry "On To Tokyo!" when he proclaimed the fall of Manila on February, and to other notable orders-of-the-day, one sees the fire of the crusader, whose mission is to smite Japanese aggression and barbarity hip and thigh.

Now this doesn't mean there's no chance of Japanese surrender short of amphibious invasion. Capitulation is possible before invasion although we can't go so far at this juncture as to say it is "probable."

The little island kingdom of Japan, which is exceptionally vulnerable to bombing, already is enduring an aerial bombardment which exceeds anything that Germany, or any other country, ever underwent. That continued at the week-end despite a fierce typhoon. The flimsily build cities are being crushed by the avalanche from the sky. And this assault—coupled with naval bombardment—is increasing as the Allied forces are augmented by fresh contingents from Europe.

Nippon's navy has been rendered important. Her air force is a ghost of its former self. Her war industries are being wiped out. Her railways and other communications—which never were being destroyed so that neither war supplies nor essential food-stuffs can be moved to meet requirements.

The main Japanese islands are almost completely blockaded. To the already formidable naval and air blockade, now has been added the blocking of all important harbors by fields of mines sown by airplanes. Japan is to all intents cut off from the outside world. And she not only is dependent on that outside world for much of her food and most of her other supplies, but she no longer can ship war material to her forces on the continent and on the Pacific islands which she still holds.

So we see a nation of 100,000,000 facing (1) destruction of its cities, (2) terrible civilian casualties which cannot be avoided in these tight little islands with their great concentrations of population, and (3) starvation. How long can she take that? Nobody knows—but there certainly is a limit to even Japanese fanaticism.

However, we aren't sitting idly by, waiting for the answer. The announcement from General MacArthur's headquarters declares that "a mighty invasion force is being forged" under the primary responsibility of the commander "for the final conquest of Japan." That means the kill. The statement also points out that the Ryukyus and the Philippines form a huge semi-circular base from which the assault can be delivered.

The American-British-Chinese ultimatum of July 26 to Japan gave the alternatives of immediate unconditional surrender or "prompt and utter destruction." Those two adjectives, "prompt" and "utter," perfectly describe MacArthur's military operations. He will do his part to implement that ultimatum.

SOUTHWORTH'S BODY IS FOUND IN RIVER

NEW YORK, Aug. 6 (AP)—The body of a man found floating at the confluence of the East River and Long Island Sound was identified today as that of Maj. William B. (Billy) Southworth, Jr., pilot of a B-29 which crashed here last February 15.

The young pilot's father, Billy Southworth, manager of the St. Louis Cardinals, headed for New York today to claim the body and take it home for burial.

TEACHER INCOME IN COUNTY TO BE ABOUT SAME

Fewer Vacancies Now Than Since Early Wartime—No Difficulty Expected

Teachers in Fayette County's school system, excluding Washington C. H., will get a "cost of living" increase in salary when they go back next month, but their income will be just about the same as it was last year when they received a bonus, W. J. Hilty, the system's superintendent, said while still in the midst of figuring out just exactly what the Daniels-Cramer bill, passed by the last session of the legislature, will mean.

Hilty calculated the increase in state funds this year would amount to \$14,169.75 and "just about" equal the bonus the teachers received last year from the special appropriation by the legislature.

That bonus for the county system as a whole amounted to approximately \$15,000 and was distributed among teachers, janitors and cooks by the district boards of education at their discretion. The money was allotted to the schools on a per pupil basis.

Each district has its peculiar circumstances which prevents uniformity in salary increases, but Hilty said he had made recommendations to each board that existing salary levels be maintained and wherever possible upward adjustments be made. The boards, he declared, are giving careful consideration to the numerous problems confronting them and felt certain that school employees could expect an income no less than that of last year with reasonable increases "very possible."

Teacher Situation
The teacher situation, Hilty said, was somewhat better than last year, but still was not the same as in peacetime years.

No serious difficulty is anticipated by the superintendent in maintaining full staffs of teachers. This comparative optimism was based on reports from the district board.

Although not all of the teachers have signed their contracts for next year, the county superintendent said this was not an unusual condition and added that it was causing the district boards no great concern. Most of them, he added, already had signed their intention of returning to the classroom in the fall and that the contracts were routine matter.

After a cursory check with the local boards, the county superintendent said that only six or eight known vacancies exist at present. And, he had the impression that the boards had teachers in mind for most of these.

Hilty had highest praise for the present teaching corps as a whole. Many of them he said had offered their services to the schools two or three years ago through a patriotic desire to help meet the wartime teacher shortage that has been critical all over the country.

It was this teacher shortage that focused attention on teacher salaries, he said, and was an important influence behind legislative action that brought increases in Ohio and many other states. Many teachers in the county system now are married, the superintendent said—more than for several years—and this has eased somewhat the stringency and problems resulting from relatively low salaries. By way of explanation Hilty pointed out that teacher salaries range upward from \$1,100 and he added "it has not been easy to live on the minimum during wartime" with no other source of income. Most of the married teachers, he added, were not harassed by this financial stringency and as a consequence were not inclined to desert the classroom for better paying wartime jobs. Many of them, he said, had taught school before

Brig. Gen. Harold Nisley Is Decorated By Prince

Prince Felix (center) of Luxembourg presents award to Brigadier General Harold J. Nisley (right) former Fayette Countian, at Spots Platz, Germany.

Special to Record-Herald

WIESBADEN, Germany—Brig. Gen. Harold J. Nisley, Washington C. H., Ohio, was presented with the Ordre National de la Couronne de Chene (officer grade) by Prince Felix of Luxembourg on behalf of the Grand Duchess at a special ceremony at 12th Army Group Headquarters here recently.

Gen. Nisley, Ordnance Officer of Gen. Omar N. Bradley's 12th Army Group, is a native of Fayette County, Ohio. He graduated from the Washington C. H. High School in 1910, and attended Ohio State University the following year. Entering the U. S. Military Academy at West Point, N. Y., in 1913, he was graduated in 1917. He is also a graduate of the Massachusetts Institute of Technology, Boston, Mass., the Army Industrial College, and the Army War College, Washington, D. C.

Met at the Wiesbaden airport by General Omar N. Bradley, Commanding General of 12th Army Group, Prince Felix inspected an honor guard of the 626th Armored Infantry Battalion. The Prince then presented the awards in grades of "officer" and "chevalier."

Thanking the 12th Army Group officers on behalf of the Grand Duchy of Luxembourg, Prince Felix paid a tribute to the "Army of the United States of America which fought for liberty and justice . . . which we all share in common for the freedom of mankind."

The Prince added: "I need not tell you that these medals cannot fully commemorate the memory of the deed which will live forever in our hearts. On behalf of the Grand Duchess of Luxembourg, I thank you for the liberation of our country."

Gen. Nisley is a brother of County Commissioner Jean Nisley and Ralph Nisley, prominent farmer and Granger.

their marriage and returned because they were needed in an emergency. Whether they will remain after the war, he said he did not know, but declared "they are good teachers and we all hope they will."

LEMON CHIFFON PIE GOES TO WAR; EXAMPLE OF EXCHANGE OF IDEAS

(Continued From Page One)

improving the operation and effectiveness of his escort carrier forces.

"He's always sending some of us out with the fast carriers—just to see how they do it on the big ones," one of his aides commented.

Adm. Durgin, who hails from Palmyra, N. J., believes in his CVE's. It was he who first used the escort carrier to supply air support to an amphibious invasion—in the south of France. He is, as one of his squadron commanders said, the "one man who has made the CVE an offensive weapon."

In the Pacific, where land bases are even more remote, Adm.

Durgin conclusively proved their value for close-in support in the Lingayen, Iwo and Okinawa landings. At Okinawa his ships remained offshore 82 days, flew 35,000 sorties and shot down 279 enemy planes at a cost of 63 pilots and crewmen.

The escorts, built on converted tankers and merchant ship hulls, originated as an emergency idea after Pearl Harbor, their main purpose being to transport Navy and Marine fighters to war areas—the "slave trade," as it is called.

But Durgin believes the CVE idea will be developed into a distinctive type of ship, with improved design to eliminate its present vulnerability.

Which may be why he sends his men out for ideas—just as he sends his cook out to bring back lemon chiffon pie.

BLACK STRIPING WILL START SOON

No White Paint Available for Highway Marking

Howard Gregg, route marker for this division of the State Highway Department, said Monday that within the next few days the striping machine, using black paint instead of white, and with a limited amount of yellow also available, will start the work of striping the highways in Fayette County.

White paint is not available, and will not be until after the war, it is indicated, so that on roads where black paint shows the center line will be painted in black.

Some yellow paint is available for marking the roads at points where danger exists in passing, such as approaches to small hills, and at curves.

The buffaloes were the first trial makers in the west.

BIG INCREASE IN SALES TAX DURING YEAR

County and State Show More Goods Sold So Far in 1945 Than in 1944

Ohio's collection from sales tax in the first seven months of 1945 gained \$4,064,463, over the same period last year, State Treasurer Don H. Ebricht has announced. In Fayette County during the year up to July 21, the total collections were \$76,987.93 compared with \$70,228.72, or a gain of more than \$6,500 over last year.

All surrounding counties also showed gains during the same period, as follows:

Clinton County, \$69,733.47 compared with \$65,951.59 last year; Greene, \$128,488.24 this year, \$116,292.02 last year; Highland, \$67,169.69 this year, \$61,527.05 last year; Madison, \$55,175.52 this year, \$52,972.85 in 1944; Pickaway, \$52,903.59 this year, \$48,122.69 last year; Ross, \$144,021.99 this year, \$125,607.82 last year.

In the state the collections of liquor, beer and wine taxes also showed gains as did intangibles and corporations taxes, but there were decreases in taxes on gasoline, liquid fuels, cigarettes and admissions.

Sales taxes from January through July this year totaled \$39,224,968, against \$35,160,504 for the first seven months of 1944. Liquor gallonage taxes totaled \$4,429,247 this year to date, compared with \$3,666,877 last year, and beer and wine tax collections rose from \$10,055,238 in the January-July period of 1944 to \$10,396,648 in the corresponding period this year.

Cigarette taxes brought in \$5,298,775 in the seven months of this year, against \$6,238,226 in the like period last year. Collections of the three-cent gasoline and one-cent liquid fuels tax in the first seven months of 1945 totaled \$18,413,321 and \$6,140,767, respectively, against \$19,043,881 and \$6,417,643, respectively in the first seven months of last year.

Americans spent more than \$700,000,000 at the drycleaners in 1944.

Swiss Cheese SANDWICH and Malted MILKSHAKE
for a healthful 27¢ DAIRY LUNCH at Isaly's

TEMPERATURE DROP OVER THE WEEK END

Rainfall So Far This Month Is 1.26 Inch

Sunday morning was one of the coolest of the season, with a drop to 56 degrees, and Sunday's temperature was moderate, following similar weather Saturday.

Sunday's peak here was 84 degrees and a year ago 92 and 72 were the extremes.

At 8 A. M. Monday the reading was 73 degrees. So far this month rainfall has totaled 1.26 of an inch, and of this only .02 was recorded over Sunday night.

In 1873, at least 5,000,000 buffaloes were slaughtered.

Two Girls from Here Take Part In Radio Program

"Yes, we certainly were scared," commented Miss Janice Fogle as she spoke of her appearance on the Dr. Sam Pollack program along with Miss Joan Kellough over station WKRC, Cincinnati, on Sunday morning, when they appeared on the regular amateur hour program at eleven o'clock. Radio listeners here heard the girls, Sunday.

Miss Kellough, daughter of Mr. and Mrs. Harold Kellough of the Prairie pike, and who has been singing with the Triple Trio of the high school, here, sang "A Friend of Yours," during her appearance on the program. Miss Fogle's contribution consisted of an instrumental medley of popular piano selections.

Miss Fogle, daughter of George W. Fogle of the Columbus road, has long been recognized as one of the city's most promising piano students. She has also been a member of the Triple Trio.

As for how the young girls went about getting to appear on the program, Miss Fogle said they "just called up and made our appointment." Both girls were visiting Mr. and Mrs. Herschel Clay, of Silverton, for the week end.

It was both girls' first radio experience.

Twins Honored At Shower on Saturday Here

Mrs. James A. Pidgeon (the former Mildred Bapst) and her twin sister, Miss Millicent Bapst, were complimented at a double shower at the home of Mrs. Ted Kline, Saturday afternoon.

Mrs. Pidgeon was honored by her friends on her recent marriage, while her sister, Miss Bapst, left early Sunday morning for Turlock, Calif., where she will become the bride of Pfc. Clyde Kinnison.

A large number of prettily wrapped gifts were opened by the honorees, who each expressed their appreciation for the fine assortment presented them. After informal chatting, a delicious dessert course was served by the hostess who was assisted by Miss Wilma Bapst.

Bluebirds Will Meet Tuesday

Members of the Bluebird organization of this city are asked by their leader, Miss June Wyatt, to assemble at the Teen-Age club room on Tuesday evening, August seventh, for an important business session, the first in several weeks. They had discontinued meeting for a few weeks, so as to provide a short vacation before resuming their work, she said.

New officers will be elected at this meeting as well as the selection of new members, so the meeting will be of great importance for the members.

Honored On Birthday

The home of Mr. and Mrs. W. F. Baker of the White Oak road was the scene of a jolly gathering, Friday evening, when around fifty neighbors and friends surprised Mr. Baker on his seventieth birthday.

A potluck supper complete with all the seasonal viands was enjoyed. Mrs. Baker was assisted during the evening by her two daughters, Mrs. Ilo Mark and Mrs. Yvonne Duff. The guests departed at a late hour after greatly enjoying the pleasant affair.

Fifteen Attend Informal Party

Miss Sarah Lyon was a cordial hostess during a come-as-you-are party given at the home of her parents on Circle Avenue, Friday evening, the occasion bringing together fifteen young women who enjoyed the informal hospitality so ably extended by the hostess.

During the course of the evening, several tables of bridge were at play, which provided keen pleasure for the guests. A buffet serving of appropriate and seasonal viands were placed on the dining table by the hostess, and these were enjoyed by the guests.

Those included in the evening's many pleasures were Mrs. Harold King, Mrs. Clark Thompson, Mrs. Robert Miller, Miss Betty Lucas, Miss Phyllis Pittenger, Mrs. Don Rockhold, Mrs. Fred Braddock, Mrs. Roland Chase, Mrs. Herbert Glass, Mrs. Paul Chaffin, Jr., Mrs. Edward Hoskins, Mrs. Joe Batson, Mrs. John Bush, Mrs. Eugene Alkire, Miss Evelyn Morrow and the hostess.

Engagement Announced

Miss Virginia Brock

Announcement is being made here of the engagement and approaching marriage of Miss Virginia Brock, daughter of Mr. and Mrs. M. L. Brock, 423 Bellaire Avenue, Springfield, to Harold C. Gordon, son of Mr. and Mrs. A. G. Gordon, Rose Point, near this city.

Miss Brock, who is a graduate of Springfield High School, is now employed in the offices of the W. T. Smith Co. in Springfield. Mr. Gordon is a graduate of Washington C. H. High School, and is now engaged in farming.

The wedding will be an event of early autumn.

Birthday Occasion For Supper Party

The 13th birthday of young Jon Ervin, son of Mr. and Mrs. Nathan Ervin of Jeffersonville, was the occasion for a covered dish supper given by the Ervin family on Friday evening, of last week.

After a bountiful supper, the evening was spent enjoying games, bridge and informal visiting.

After a bountiful supper, the evening was spent enjoying games, bridge and informal visiting. The guest list included Mr. and Mrs. Ancl Creamer, and son, Carl Nathan; Mr. and Mrs. Harold Klever, sons Roger and Ronnie; Mr. and Mrs. Clark Robinson, sons Jimmy and Bill; Mr. and Mrs. Horace Mossman; Mr. and Mrs. Marvin Brown and son, Karl Roger; Mr. and Mrs. Forrest Ervin; Mrs. Jean Warner, son, Billy; Mr. and Mrs. Howard Reif, Jr., son, Davis; Mr. and Mrs. Ellsworth Vannorsdall; Nicky White, of Columbus; Mrs. Sam McChesney and daughter, Sue; Mrs. David McCord; Sgt. Jimmy McChesney and Sgt. Eugene Hunter, all of South Charleston.

Staubton WSCS

The August meeting of the Staubton WSCS was held at the home of Mrs. Orville Bush when her assisting hostess was Mrs. Matt McDonald. Twelve members were in attendance that day.

Mrs. Ora Hidy was devotional chairman, which was followed by prayer by Mrs. Ora Marshall.

A short business meeting was led by the president, Mrs. Leo Baughn.

Miss Ethel Hidy was in charge of the social hour, during which a program consisting of the reading of several poems, was enjoyed. Light refreshments were served and this concluded the pleasurable afternoon.

Personals

Dr. E. E. Rhoades and sons, Billy and Dick, of Cleveland, were here Thursday for a visit with Mr. and Mrs. Herbert Wilson. Dr. Rhoades continued to Cincinnati on a business trip, leaving his children here to spend two weeks with the Wilsons. Another guest, Patty Evans of Springfield, returned to her home on Friday after a visit here.

Mrs. Belford Carpenter left Monday morning from Cincinnati by rail for Chicago, Ill., where she will spend the week as a houseguest of Mr. and Mrs. John F. Otis and family, who formerly resided here.

Mrs. S. F. DeWeese had as guests for the weekend, Mrs. Thomas DeWeese and son, Thomas, of Georgetown, and Miss Elizabeth Mallow, of near Austin. They came especially to attend the Todhunter reunion on Sunday.

Mrs. N. E. Rhoades, of Washington, D. C., and Mrs. James W. Chaney and Miss Marjorie Brown, of Hillsboro, returned to Hillsboro after a few days spent here with Mrs. DeForest Chaney and daughter, Janice Elaine. Mrs. Chaney and her daughter accompanied them to Hillsboro to be the Friday evening dinner guests of Mr. and Mrs. H. E. Brown and family.

Messrs. Robert A. Craig and John MacIver, of Craig Bros., left Saturday for a week's business trip to New York City.

Mr. and Mrs. George Parks and Mrs. Frank Little returned Saturday after a week's fishing trip at Grand Lake, Celina.

Misses Pat Mitchell, Nancy Hewitt, JoAnn Van Pelt, Jeannette Deere, Martha Nisley, Mary Lou Reif and Alice Montgomery returned Saturday from a visit at the 4-H Camp Clifton.

Miss Alice Davis was in Xenia, Sunday, going to attend the Davis reunion, held in honor of Miss Ethel Griffin, of Gadsden, Ala., who was there for a visit for the first time in eight years.

Mr. and Mrs. Orris Knapp and son, Donald, of Jeffersonville, had as guests for dinner on Sunday, Mr. and Mrs. Emerson Kendrick and son, David, and Miss Beulah French, this city.

Mr. and Mrs. Ray Maynard and Mr. Clayburn Coffman returned Sunday evening from the Sulphur Lick Springs Hotel, near Chillicothe, where they had spent a week. Mr. Coffman was joined by his wife who came Saturday to remain overnight.

Mr. and Mrs. A. L. Rhoades had as guests during the past weekend, Dr. E. E. Rhoades and sons, Bill and Dick, of Cleveland, and

At Reception After Marriage

Pfc. and Mrs. Wilson Webb

Pfc. and Mrs. Wilson Webb (Kathleen Wilson) are pictured above during the reception held in their honor at the home of the bride's parents, Mr. and Mrs. Horatio Wilson, on East Street, Sunday evening, July fifteenth, after their marriage which was solemnized in the Grace Methodist Church. Rev. G. B. Parkin officiated.

Pfc. and Mrs. Webb have returned after their two weeks wedding trip, and are spending some time in various cities with relatives. At present they are in Russellville.

Pfc. Webb reports at Camp Atterbury, Ind., on August 23 for reassignment after 37 months service in Australia and New Guinea.

Mrs. Ernest Sedam and daughter, Judith Lee, of Cincinnati.

Mr. Hugh Beatty came from Cincinnati to spend the weekend with his parents, Mr. and Mrs. W. O. Beatty. It was his first visit back home since he went to Arizona eight years ago. He plans to return to the west coast this fall.

Mr. and Mrs. Robert S. Sanderson, Sr. and son, Richard, were the Sunday guests of Mr. and Mrs. R. S. Sanderson, Jr., and family, in Columbus.

Miss Mary Lois Brown was a weekend guest of Mrs. Mary Jean Schwaigert in Cincinnati.

Pfc. and Mrs. Wilson Webb (Kay Wilson) are in Russellville for a few days' visit with Mr. George N. Seeks.

Mr. Walter E. Sollars was a Saturday visitor in Cincinnati, going to attend a session led by the new secretary of agriculture, Clinton P. Anderson at the Gib-

son Hotel. Farmers from Ohio, Indiana and Kentucky attended this interesting session. Mr. Sollars being the only representative of Fayette County.

Mr. and Mrs. Lloyd Delrifle of Dayton spent the week end with Mr. and Mrs. Walter Sollars.

Mr. and Mrs. Thurman Coppes, of Dayton, were the week end guests of Mrs. Fred Crone.

Mr. and Mrs. F. M. Keyes of Dayton were the Sunday afternoon guests of Mr. and Mrs. Ormond Dewey. Mrs. Keyes is Mrs. Dewey's sister.

Mr. and Mrs. John Forsythe were week end guests of Mr. and Mrs. William Cocoran, at Grove City. Mrs. Forsythe going to remain until the middle of this week.

Sunday evening dinner guests at the out-of-door furnace in the rear of the Ray Brandenburg home included Mr. and Mrs. Walter E. Sollars, Mr. and Mrs.

Sam Marting and daughter, Esther, Mr. and Mrs. Arthur Scott, Mr. and Mrs. Joe Fortier and Mrs. Robert Fortier.

Capt. Bradley E. Johnson of Brookley Field, Mobile, Ala., was the Sunday overnight guest of Mr. and Mrs. J. M. Baker, returning on Monday morning to Alabama by plane.

Mr. and Mrs. George Robinson, Jr., and daughter, Becky, Mrs. Paul Thornhill and Miss Patricia Atkins, of Akron, spent Sunday at Lockbourne with Mr. and Mrs. G. B. Clellan.

Miss Mary Jane Davis left Sunday for Cleveland where she will spend two weeks with an uncle and aunt, Mr. and Mrs. William H. Davis.

Mr. and Mrs. Aubin Hedges and children, of Hillsboro, were the Sunday guests of Mr. and Mrs. Frank S. Jackson.

Mrs. DeForest Chaney and daughter, Janice, spent Sunday near Springfield as guests of Mr. and Mrs. William Granger.

MINIMUM PAY SCALE IS IN LINE FOR RAISE

COLUMBUS, O., Aug. 6.—(AP)—J. Harry Moore, state industrial relations director, disclosed today a move to raise the minimum wage scale of women and minors serving food in the hotel and restaurant business was under way.

Moore said he expected a formal request for a hearing on proposed revision of the present minima soon from Herschel White of Cincinnati, secretary of the Ohio branch of the Hotel-Restaurant Employes and Bartenders (AFL).

The present minimum scale ranges from 13.02 cents an hour for service employees such as waitresses in towns of less than 5,000 population to 21.875 cents for non-service workers—kitchen help, bus boys, cashiers, and the like—in cities of more than 100,000 population.

BIBLE QUESTIONS ANSWERED BY THE VOICE OF PROPHECY INTERNATIONAL BIBLE BROADCASTER

Question—What is a "creed"?
Answer—It is usually defined as a formal statement of doctrines.
Q—Can you tell us what the "sign of Jonas" is as mentioned in Luke 11:29-32?
A—It was Christ's resurrection from the dead, which had been symbolized by Jonah's deliverance from the belly of the great fish. Matthew 12:40, 41.
Q—Isn't it clear that man has evolved from lower animals?
A—It is not clear. The "missing link" is still missing. Why not take God's Word at face value. "So God created man in His own image, in the image of God created He him; male and female created He them." Genesis 1:27.
Q—Were Sodom and Gomorrah destroyed by an ordinary volcanic eruption?
A—Not if we believe the Bible. Their destruction had been foretold and was known to be coming. The words of the angels were: "For we will destroy this place, because the cry of them is waxen great before the face of the Lord; and the Lord hath sent us to destroy it. . . . And the Lord rained upon Sodom and upon Gomorrah brimstone and fire from the Lord out of heaven." Genesis 19:24.
Q—Why was there no heaven or yeast in the Passover bread eaten when Israel left Egypt?
A—Leaven was a symbol of corruption, and the children of Israel had to be clean before God. Paul uses the same figure in 1 Corinthians 5:7, 8: "Purge out therefore the old leaven, that ye may be a new lump, as ye are unleavened. For even Christ our passover is sacrificed for us: therefore let us keep the feast, not with old leaven, neither with the leaven of malice and wickedness; but with the unleavened bread of sincerity and truth."
Q—Hasn't research proved the origin of life to be contrary to the Bible record?
A—Prof. George Darwin, president of the British Association and son of the renowned Charles Darwin, said at a public meeting of the Association on August 16, 1905, "The mystery of life remains as impenetrable as ever." As far as science is concerned, this statement still holds. The Bible tells us that God created the living from the non-living. Read all of the first chapter of Genesis; also Psalm 36:9: "For with thee is the fountain of life: in Thy light shall we see light."

Ed. Note: Address your questions to the BIBLE QUESTION COLUMN, The Voice of Prophecy, Box 55, Los Angeles 53, Calif. Bible questions of general interest will be answered in this column as space permits.

GREYHOUND TO HAVE SUPER-BUS AFTER THE WAR

More Comfort in Bus Travel As Well as by Train Being Planned

Not only will train travel be more comfortable when more modern equipment is added after the war, but the Greyhound Lines have announced plans for a fleet of super-buses with nearly all of the comforts of a train.

During the past six months many new buses have been added to the string serving Washington C. H. and community. This has made it possible to better advantage.

Arthur S. Bostwick, head of the public relations department of the Central Pennsylvania Greyhound Lines, in an announcement regarding the improved bus service in the offing, says in part:

"Greyhound is geared to make luxury travel commonplace.

"Its resources, as always, are concentrated upon a single commodity—service.

"Greyhound executives reported today that after Japan is crushed and the government gives the green light this peacetime service will be provided America's millions of motor coach travelers through:

"Super-coaches equipped to offer amazing comfort and convenience—

"New terminal facilities, constructed to meet every conceivable desire—

"Operating schedules tailored to meet community requirements—

"Hundreds of economical all-expense tours drafted by Greyhound Highway Tours, Inc., a popular prewar service, and—

"Expansion of the Greyhound Post House program.

"The projected Super-Coach, styled by Industrial Designer Raymond Loefy and Greyhound engineers, represents the ultimate in luxurious highway transportation.

"The vehicle, as presently blue-printed, will accommodate a total of 50 passengers in its upper and lower compartments, compared to 41 places in the largest current models. Seats will be wider, more deeply cushioned. Improved air conditioning units will govern temperature and humidity. New departures in shock absorption and weight distribution will make for unparalleled riding ease.

"Toilet facilities are planned. One compartment can be used as a buffet and lounge. There will be larger baggage compartments.

"Greyhound engineers reached into the realms of plastics, the lighter metals and safety glass research to fashion the postwar Super-coach. Windows will be larger, yet shock-resistant alloys will make for greater over-all body strength. Incorporated in the Super-coach will be the latest mechanical innovations. A demountable rear-end motor assembly will reduce noise and vibration to a minimum. Intent upon safety, Greyhound is now conducting tests in two-way radio communication between experiment coaches and a transmitter station in the Chicago area.

"The Greyhound Super-coach, in short, will be the safest, most comfortable and attractive vehicle of its kind that American ingenuity and skill can produce."

RUSSIA WANTS DOOR ON MEDITERRANEAN, MOVES NOW INDICATE

(Continued From Page One)

directly opposite Gibraltar at the western gateway to the Mediterranean.

Russia also has shown a steadily increasing interest in the previously British-dominated European Sea with Soviet demands for renegotiation of the Dardanelles International Administration and of her treaty with Turkey.

Officials here acquainted with such matters say Soviet interest in the western Mediterranean was made more evident at Potsdam.

While Tangier itself appears little more than a wedge, considerable controversy is foreshadowed when the Big Three get down to details on former Italian possessions.

The Potsdam communique showed Russia wanted these placed under trusteeship. But it indicated that President Truman and Prime Minister Attlee objected.

It was decided finally "the question of Italian territory would be considered by the September council" of foreign ministers assigned the task of drafting a peace treaty for Italy.

Pantelleria's great importance is its strategic position—comparable to that of Malta in the eastern Mediterranean.

And along with Pantelleria, according to diplomatic information, Russia also asked that Trieste—recent Anglo-Yugoslav storm center on the Adriatic—be placed under international trusteeship. This question, too, was said to have been left for future decision.

Thus, the Russian plan appears

County Courts

SEEKS DIVORCE

Anna Lee Crossen, by her next friend, Betty Garringer, filing her petition in Common Pleas Court, asks for divorce from Robert F. Crossen to whom she was married June 14, 1943. Gross neglect of duty is charged by the plaintiff, who is represented by Otis B. Core. Plaintiff asks restoration to her maiden name of Anna Lee Wilson.

L. P. CAVETTE CO. GETS CONTRACT FOR ROAD WORK

32.94 Miles of Highway in County To Be Improved By October 15

State Highway Director Perry T. Ford, in announcing awarding of contracts covering 95.64 miles of road at a total cost of \$521,308, said Monday that 32.94 miles of highway in Fayette County will be given bituminous treatment, and the contract was awarded to the L. P. Cavette Co., Lockland, at the cost of \$34,695-34.

The improvement will include sections of various state roads in the county, most of them secondary highways, and the bituminous treatment is expected to carry the roads for several years before they need additional attention.

Work on the bituminous treatment will start within a short time and must be completed by October 15.

Only one bridge was included in the contracts let by the department, but the structure is not in Fayette County.

The bituminous treatment of the 32.94 miles of roads in the county is part of an extensive resurfacing and surface treatment program being carried out in the community this year, and should place virtually all of the state and federal routes in the county in good condition for next winter and for several years.

to be taking the form of a chain of internationally held bases across the Mediterranean.

A significant factor in this connection was the Big Three announcement on disposal of the German fleet and merchant marine. The communique said an agreement was reached "in principle" and that experts would work out details to be announced "in due course."

Since Russia obtained part of the Italian fleet when Italy left the Axis, it can be presumed the Soviet also is asking its share of German shipping.

Stalin already has announced the Red fleet must continue to expand. It long has been a basic Russian policy to reach out for warm water access to the sea and the natural consequence, shipping and shipping lanes.

TAFT STARTS GOP DRIVE TO END WAR CONTROLS TO BE LAUNCHED IN FALL

(Continued From Page One)

ery or hundreds of basic materials required if men are to be put to work when they come out of the army."

Taft said wage controls should be abolished next year, and he called for sharp easing of War Manpower Commission regulations "so that anyone can get a job from anyone else."

Congress, he asserted, should provide a "just program to assure industrial peace after the war" and a "definite postwar policy for agriculture to assure fair prices."

Taft asserted that state and local governments should take the initiative in social welfare matters with "reasonable" federal aid. He called for such assistance on housing, health and education and urged expansion of the old age pension system and unemployment compensation program.

STORM DOES TO HORNET WHAT JAPS COULD NOT IN 52 DAYS OF ATTACK

(Continued From Page One)

destroyers sunk; 42 cargo ships sunk.

The Hornet, named for the ship which launched the first bombing raid on Tokyo, was 150 miles off Okinawa when the typhoon struck June 5.

Her bow rose atop a great wave and then dropped with an impact which folded down the flight deck. The engines were stopped and the ship drifted before the raging wind. She had to back into the wind next morning to get search planes off the deck. They helped reassemble the task force.

PRIVATE TALKS ARRANGED HERE BY REP. BROWN

Congressman To Offer Help In Individual Problems After Rotary Meeting

Congressman Clarence J. Brown who is to appear as the speaker before the Rotary Club Tuesday noon this week, has announced that he has reserved three hours here, during Tuesday afternoon, for conferences with any person who wishes to talk with him on official business or on any matters in which he can be of service.

He has been on an official trip to the Pacific coast on government business in connection with the paper shortage in the country and was scheduled to arrive at his home in Blanchester sometime Monday. Unless unforeseen delays prevented him from arrival home he planned to spend a good part of Tuesday in this city.

seventh Ohio district of which Fayette County is a part, feels that it is the duty of every congressman to go into each county of his home district whenever possible to interview any of his constituents on anything in which he can be of help. Especially are many families concerned over difficulties of various kinds regarding some family member who is in the armed forces of the nation. Brown assigns members of his office force to spend much time looking into these situations through the war or navy departments at Washington D. C.

The congressman has arranged for a conference room in the Court house Tuesday afternoon across the hall from the rear of the auditor's office, from two to five o'clock, during which period he will be at the service of those who wish to obtain some special information.

While at the Rotary Club luncheon during the noon hour Tuesday he will speak on some timely topic relating to the war and postwar situations specially as they are affected by recent legislation.

VERY SMALL TOT WANDERS AWAY

Police Find Mother After Short Search

About 7:15 A. M. Monday, police were called to East Temple Street where passersby had noticed a very small child, scantily clad, toddling along the sidewalk, apparently lost.

When the police arrived the child could only say "I want muvver" but was not old enough to give any information as to who "muvver" was.

Inquiry was started in the neighborhood, and some 2 1-2 blocks away the officers finally located the mother, who was much alarmed about the missing child, and who told police she was "Mrs. Moore." The officers did not obtain the child's name or mother's first name.

The mother explained that the child had arisen from bed without knowledge of the remainder of the family, went out of doors and wandered away in the early morning hours.

It was sometime before the child, little more than two years of age, was missed and then a hurried search was started which was interrupted by the police returning the child to its home.

After their return the Hornet retired from the area.

The Hornet spent 52 days under Japanese air attack without being hit by even a machine gun bullet.

Her crew claims a record in the shooting down of 255 Japanese planes in a 30-day period.

In one day she accounted for 67. The Hornet was launched at Newport News, Va., August 30, 1943, and after the shortest shake-down cruise in carrier history was in action against the Japanese exactly seven months later.

Under Rear Admiral (then captain) William D. Sample of Pensacola, Fla., the Hornet went into the Marianas, from Guam to the Bonin and Volcano Islands, through the battle of the Philippine Sea, to Pagan and the Bonins again, to Eniwetok and back to the Bonins. She was in the Guam invasion, then hit Yap, Ulithi and the Bonins again.

Give It A CHANCE To Help Feel BETTER

You can help your bowels to act properly by making it a habit to move them at regular times every day. If an occasional attack of bowel sluggishness causes headache or temporary minor intestinal distress, give TONJOX. You remove the waste matter accumulated in the bowels. Then see for yourself how much better you will feel. Caution: Use only as directed. Sold by DOWNTOWN DRUG STORE

THE OLD HOME TOWN

FAYETTE COUNTY BOYS IN SERVICE

Sgt. Willard N. Parrett has returned to the Army Air Field, Reno, Nevada, after spending a 21 day furlough with his parents, Mr. and Mrs. Louis C. Parrett, Chillicothe highway.

A-S James Hunter, U. S. Navy, has been transferred from the MacIntyre Hospital, Great Lakes, Ill., to the U. S. Naval Specializing Hospital, Palm Beach, Fla., for further training, his wife here has learned.

Cpl. Gerald Rose has arrived at his home here to spend a 30 day furlough, coming from the European theater of operations where he served 22 months.

He is at home with his father, Homer Rose, 410 Fifth Street.

Pfc. Woodrow Shipley has gone to Fort Dix, New Jersey, for further training after receiving a reassignment to the South Pacific after having spent a 30 day furlough with his wife, his daughter, and his mother, Mrs. Mollie Shipley.

He had spent one year in Europe.

Mr. and Mrs. Harry P. Wood, 910 Lakeview Avenue, have received word their son, Richard H. Wood, U. S. Navy, has been promoted from Bos'n Mate second Class to first class. He also has been transferred from the Netherlands East Indies to the Admiralty Islands.

Bos'n Wood has served 16 months in the South Pacific. He is now with the base police, his parents have learned.

Pfc. Richard Durnell, a veteran of 28 months of combat with the Marine Corps in the South Pacific, called his parents early Saturday morning from San Francisco, Calif., telling them of his safe arrival in the States the day before.

He told his parents he would be sent to San Diego before being given a furlough to come here, and expects to be here in the next fifteen days, at least.

He has been in service three years in September, and has not been home since entering service.

Cpl. and Mrs. Maurice Hopkins and Mrs. Ruth Hopkins have returned here after spending ten days with Mrs. Maurice Hopkins' parents, Dr. and Mrs. John A. Kittelson at their cottage on Sand Lake in northern Minnesota. They will spend the week here with his mother before returning to Presque Isle, Maine, where Cpl. Hopkins is stationed.

He is a radio operator, flying with the famous "Snowball," an Army Transport outfit. It is the name of the 1380th A.F. Base Unit, A.T.C., which flies daily scheduled runs of cargo and service personnel from the base in Maine to Paris and the Azores.

Cpl. Hopkins has made frequent trips to Paris where his outfit aided in the evacuation of thousands of wounded from the French capital. Cpl. Hopkins has flown over 40,000 miles in the last three months as radio operator on a Douglas C-54 Skymaster, a huge four engine cargo ship operated by the A.T.C.

Tech-Sgt. Harry V. Shoop, son of Mrs. Herbert E. Shoop, 44 Highland Avenue, a machine gun platoon sergeant, is serving with the 38th Division (Avengers of Bataan) on Luzon. His machine

guns have helped destroy many Jap strong points and break up Jap banzai attacks.

Tech-Sgt. Shoop is a graduate of Mount Holly High School, Mount Holly, N. J., and worked as a fireman in this city. He volunteered for the army on October 15, 1940, and was sent overseas December 14, 1944.

Tech-Sgt. Shoop is authorized to wear the Combat Infantry badge, Philippine Liberation ribbon and Asiatic Pacific service ribbon with three stars for New Guinea, Leyte and Luzon.

His brother, Pvt. Maynard G. Shoop, is waiting for overseas duty.

OATS HARVEST MOVES SLOWLY

Farmers Watching Vicland Variety in County

With unfavorable weather interfering, the oats harvest in Fayette County is moving slowly, and reports indicate that the yields run all the way from very ordinary to exceptionally high.

Farmers generally are watching results of the Vicland Oats, which originated in Wisconsin, and which seem to be outyielding most of the others in this community.

Some exceptionally good yields of the Vicland are being reported, and the tests have been running good.

Mr. and Mrs. D. H. Devins, of the "Plantation" farm near Johnson's Crossing, are harvesting 37 acres of Vicland oats that have been testing 3 pounds heavier than any yet received at the McDonald grain elevator, it was said Saturday. These oats have a moisture test of 11.3 percent. The average moisture test is 12 to 13 percent.

RESURFACING OF CCC MOVES VERY SLOWLY

Second Firm of Contractors Now Busy on Five Mile Section

Work of resurfacing the Columbus Road from this city to beyond Mt. Sterling, or the full length of the concrete paving, has been moving slowly during the wet weather, with the result that the work has been completed from the intersection of the Bloomingburg Road a mile east of that town, to a point this side of Madison Mills, although half of the road has been covered with the first 1 1/2 inch layer to a point beyond Madison Mills, so that the work should move forward rapidly with proper weather.

Where the road has been completed and some 3 inches or more of bituminous macadam laid upon the concrete, the highway is smooth and ideal for traffic.

So far no work has been done on the bad section beyond Mt. Sterling and most of the highway from a point this side of the Cook Station Road to Mt. Sterling has received only the initial or preparatory coat.

Max Zeller of Columbus has the contract for resurfacing the highway from the Bloomingburg Road intersection to two miles beyond beyond Mt. Sterling, the resurfacing being necessary because much of the road was badly damaged during the past winter.

Saturday the Clinton Construction Company, which has the contract for resurfacing the CCC from the Bloomingburg Road to this city, started the work by applying the initial coat of tar and screenings.

The tar picked up badly during the afternoon, so that traffic was slowed down until night.

The Clinton Construction Company expects to proceed at once with the remainder of the work, so that it should be completed by the first of September, or earlier.

The same company has the resurfacing contract for U. S. 22 from the Bogus Road to Johnson's Crossing and will proceed with this work as rapidly as possible.

Napoleon III used aluminum table ware when the metal cost \$545 a pound.

LT. E. I. FULLWILER ASSIGNED TO DUTY

Wears DFC, Air Medal and Oak Leaf Clusters

(Special to the Record-Herald) BIG SPRINGS, Texas—First Lt. Ellis I. Fullwiler recently arrived at the Big Spring Bombardier School and has been assigned to duty, Colonel John K. Nissley, commanding officer, has announced.

Lt. Fullwiler is the son of Mr. and Mrs. V. Fullwiler of route 3, Washington C. H. The young officer is a returnee from the European Theater of Operations where he served as a pilotage navigator. He was awarded the DFC, the Air Medal with four Oak Leaf Clusters and the ETO ribbon with four battle stars.

From the Big Springs school, one of the largest bombing colleges in the AAF Training Command, a new class of "Hell from Heaven" men goes out every few weeks to meet and defeat the enemy in the far corners of the globe. Their skill in the deadly art of precision bombing is accomplished through months of specialized training and the coordinated efforts of hundreds of aircraft and automotive mechanics, clerks, armament and ordnance men, radio operators, photographers, messengers and instructors. These are the men who make the heroes.

\$12,434 STILL DUE WILMINGTON—Total unpaid taxes in Clinton County are only \$12,434, the lowest in many years.

The new Calcutta-Kunming pipeline runs a distance of 1,750 miles, making it the longest pipe line in the world.

Need Furnace Repairs?

Furnaces cleaned \$3.50 up

MOVE BUILDING TO MAIN STREET

Dunton Wool House To Have New Location

The Dunton Wool House, which for a number of years has occupied a frame structure on the Pennsylvania Railroad grounds, South Fayette Street, is to be moved to the Pennsylvania property south of the Baker Plant, on the west side of South Main Street.

The frame structure will be cut in two and moved in two sections to the new location, in order to clear the ground for the Fayette Farm Bureau Cooperative Association which is starting the first of three buildings on the tract.

For years the building, which parallels South Fayette Street, was used for lumber storage by the old Southern Ohio Lumber Co.

A lump of glossy starch rubbed on grease spots on wall paper will absorb the spot.

We repair and clean all makes of furnaces. Best materials—trained workmen. All costs based on actual materials used and labor. Phone us now.

No ups and downs in temperatures
"The Williamson Heater Company:
Our Williamson Furnace made life worth living in our home. Every one of our 10 rooms was heated evenly all day. No more ups and downs in temperatures. No more sweating one hour, shivering the next. For the first time, our son could study in his comfortably warm bedroom on the coldest evenings of the winter."
